## **EVALUATION AND GRADING SCALE:**

Course Grade will be broken down into three subcategories: Exams, Daily Work, and Final Exam. They will be weighted as follows and use the grading scale indicated:

Exams	60%	A	90-100%
Daily Work	20%	B	80-89%
Final Exam	+ <u>20%</u>	C	70-79%
	100%	D	60-69%
		F	59 and below

Daily work will be scored on selected items, not simply on completion. Typically, about five exercise problems will be selected at random from the assigned problems and scored for their accuracy. This, typically, will comprise 5 points of the total score for that assignment. The other 5 points will be based on the completion of the assignment in its entirety. Scores will be recorded out of 10 points, where the student's raw score will be rounded up to the next highest score. For instance, if a student scores the equivalent of 8.3 out of 10 on an assignment, the student's score will be recorded as a 9.

Late work is accepted, but highly discouraged due to the pace of the coursework, especially given that this is only an eight-week course. Please feel free to contact your instructor via email or by phone if you need additional clarification on a topic. Students should not feel as if the instructor is unavailable or impossible to find. If necessary, appointments can be made to work with the student's extra-curricular schedule. If contacting by phone, please keep in mind that 8:00 p.m. is bedtime for my two children, two year-old Hanna and four year-old Abby.
